Objective

Motivated and passionate AIML engineering student seeking an opportunity to apply my skills in Artificial Intelligence, Machine Learning, and Web Development to develop innovative real-world applications. Eager to enhance my technical knowledge, participate in hackathons, and contribute to leading technology companies through continuous learning, teamwork, and problem-solving abilities.

Education

Course / Degree	School / University	Grade / Score	Year
SSC	SAPEM School , Gokul Shirgaon	79.80%	2021
HSC	Rajaram College, Kolhapur	63.18%	2023
BTech CSE (AIML)	D.Y.Patil College Of Engineering and Technology, Kasba Bawada,Kolhapur	1St year CGPA - 8.4	2028

Skills

- Programming Language -C,Python
- Web Technologies - HTML.CSS
- Data & Analytics Tools - Power BI , Microsoft Excel
- Concepts- Problem Solving, Logical Thinking, Basic Data Analysis

Projects

- **Illegal Mining Detection – SIH Hackathon**
  Developed a web-based platform for detecting and monitoring illegal mining activities using real-time data visualization dashboards. Designed an interactive alert system displaying location insights and analytics to support faster decision-making.
- **Journey Junction - Tourism Website**
  Journey Junction is a modern and responsive tourism website developed using HTML, CSS, and JavaScript. The website provides travel packages, destination galleries, booking sections, customer reviews, and contact features with an attractive user-friendly interface. It is designed to deliver an engaging travel planning experience inspired by professional tourism platforms.
- **AR Visualization & VR-Based Immersive Supercomputer Simulation**
  AR Visualization & VR-Based Immersive Supercomputer Simulation is an interactive project developed using Unity that visualizes a supercomputer architecture in Augmented Reality. The system allows users to explore components like CPU, GPU, memory, storage, and server racks in a realistic 3D environment. The project enhances learning and understanding of high-performance computing through immersive visualization and real-time interaction.

Achievements & Awards

- Successfully completed a 10-week AI-ML Virtual Internship supported by Google for Developers under AICTE EduSkills Program. Earned Outstanding Grade (O) in AI-ML Virtual Internship Program.
- Awarded Best Team in Project Based Learning (PBL) 2026 for innovative project implementation.

Competition& Activities

- •Participant – Smart India Hackathon (SIH)
  •Participant – NASA Space Apps Hackathon
  •Finalist in WCE Hackathon 2026
  Actively involved in technical competitions and innovation challenges
  Interested in AI, sustainability, and technology-based problem solving
